**CRS #K-7345**  
**Hall Property**

**General Description.** The Hall Property is located on SR 1 on the west side of the road. The property consists of a dwelling constructed in ca. 1950 and a modern shed. A grassy yard surrounds the building and structure on all sides. An unpaved, U-shaped driveway surrounds the dwelling to the north, south, and west, connecting the property to SR 1. The property is in good condition.

**Dwelling.** The dwelling is a single-story, light timber frame, vernacular bungalow with a side gable roof. The building rests on a concrete block foundation. Two small, single-story additions project outward from the main section of the dwelling, one to the south and one to the west. The exterior walls of the dwelling's main section are clad with aluminum siding, and the additions are clad in vinyl siding. Window openings contain one-over-one, four-over-four, six-over-six, and eight-over-eight double-hung sash windows. The roof is covered with asphalt shingles, and features a simple aluminum cornice. A small brick chimney is attached to the exterior of the façade (east elevation), near the southern end of the wall. A second cinder block chimney is attached to the rear (west) elevation, at the ell formed by the intersection of the addition with the main section of the dwelling.

The façade (east elevation) of the dwelling consists of four bays, including one entrance and three window openings. The entrance, located in the second bay from the southern end of the elevation, contains a wood, single-leaf door, and is accessed by a concrete step with a metal railing. The window openings contain replacement, vinyl, four-over-four, double-hung sash windows. A brick chimney is attached to the façade between the entrance and the southernmost window opening.

The south elevation of the dwelling consists of two bays, including an entrance and a window opening located in the original (front) section of the building. An enclosed porch addition obscures both bays from the exterior of the building. The porch extends the width of the front section of the elevation, and features a shed roof, single-leaf door, and one-over-one, double-hung sash windows. The porch is accessed by two concrete steps with a simple wood railing.

The west elevation consists of four bays, including an entrance and two window openings in the addition and one window opening in the original rear wall of the dwelling. The entrance is located in the northernmost bay of the addition, and contains a single-leaf door. The window located immediately south of the entrance contains a vinyl, six-over-six, double-hung sash window. The window in the southernmost bay contains a vinyl, eight-over-eight, double-hung sash window. The window opening in the original rear wall of the dwelling contains a replacement, vinyl, four-over-four, double-hung sash window.

The north elevation consists of three bays, all of which contain replacement, vinyl, four-over-four, double-hung sash windows. A louvered vent is located in the apex of the gable.

**Shed.** A small, modern, timber frame shed is located directly west of the dwelling. The main section of the shed has a front gable roof, and a small, flat-roofed addition protrudes from the facade (east elevation). The shed is clad with vertical wood boards, and the roof is covered with asphalt shingles. Vinyl, one-over-one, double-hung windows are located in the north and south elevations.

**Historical Background.** On October 2, 1950, Theodore A. Hall and his wife, Marcy C. Hall, conveyed the property to Everett W. Hall (KCDB D19: 6). On October 3, 1950 Everett C. Hall and his wife, Georgia Hall, conveyed the property containing 1.0 acre to Theodore A. Hall and his wife, Mary C. Hall. On September 15, 1958, Mary C. Hall died, leaving Theodore the property. Theodore Hall died on March 20, 1959, and as a last will and testament conveyed the property to his three children, Everett W. Hall, Pearl Kinney, and Dara M. Davidson (KCDB D19: 7). Everett W. Hall obtained sole possession and sold the property containing 1.0 acre to Clarence A. Davidson and his wife, Dara M. Davidson, for \$3,500. Clarence died on May 4, 1981, and as a last will and testament conveyed the property to his wife, Dara. Dara died on March 8, 1994 and conveyed the property to her children, Grace G. Waller, Janice Y. Davidson, Daniel G. Davidson, Mary J. Stowell, Phillip N. Davidson, and Elizabeth M. Cahall (KCDB M22: 100). On February 8, 1995, Grace G. Waller, Janice Y. Davidson, Daniel G. Davidson, Mary J. Stowell, Phillip N. Davidson, and Elizabeth M. Cahall sold the property containing 1.0 acre to Richard Weaver and his wife, Martha Weaver, for \$25,000 (KCDB D118: 135).

**Evaluation.** The Hall Property is recommended not eligible for listing in the National Register of Historic Places because it does not meet the eligibility criteria established by the National Park Service (NPS 1997). The resource is an example of a commonplace, mid-twentieth-century property within the SR 1 Interchange study area. The resource retains integrity of location and setting but lacks integrity of design, materials, workmanship, association, and feeling, and is unable to convey its historical or architectural significance. The additions on this mid-twentieth-century dwelling obscure some of its original elevations.

Property-specific research and documentary research of the area in general did not reveal any associations between this property and significant events or trends. The property is recommended not eligible for listing in the National Register under Criterion A for this reason. Likewise, research did not reveal any associations with significant individuals; therefore, the property is recommended not eligible for listing under Criterion B. The property does display the distinctive characteristics of a type, style, or method of construction, nor does it represent the work of a master or possess high artistic value; therefore, it is recommended not eligible under Criterion C. Archaeological investigations have not yet been conducted on this property; therefore, the resource's eligibility under Criterion D (potential to yield information important to history or prehistory) cannot be assessed at this time.
